EDUCATION

University of Toronto

Toronto, Canada

- Honours Bachelor of Science
 - Computer Science Specialist, Specialist in Statistical Science: Methods and Practice, Economics Minor
 - cGPA: 3.94

2021 - Present

RESEARCH EXPERIENCE

Research Assistance

Toronto, Canada

- Professor Qizhen Zhang
 - Reviewed academic papers on database system and network protocols to build foundational knowledge, focusing on architectures and key design challenges.
 - Annotated PostgreSQL source code to trace client-server communication pathways and categorize internal functions by semantics, in order to guide the development of a clean abstraction layer for protocol-level interaction.

Summer 2024 - Present

WORK EXPERIENCE

Software Engineer Intern

Toronto, Canada

- Quanta Technology
 - Contributed as a full-stack developer to develop a state-based workflow portal system in an Agile team, enabling clients to define custom application states for complex case processing, significantly reducing manual overhead and improving operation accuracy.
 - Developed and maintained a web-based software tool for utility companies, with a focus on parsing and managing deeply nested tree-structured JSON data to support visualization, addition, updating and deletion of protection device settings.
 - Collaborated with cross-functional teams to gather requirements and design database solutions, implementing PL/SQL procedures and triggers to automate sequential business processes and enforce data integrity.

Summer 2024 - Present

Teaching Assistance

Toronto, Canada

- Department of Statistics
 - Led weekly 2-hour tutorials for a group of 25 students, facilitating discussions to review lecture material, clarify problem set solutions, and organize collaborative presentation activities that enhanced peer-to-peer interaction and active learning.
 - Hosted weekly office hours to provide a supportive and engaging platform for students to ask questions and receive individualized assistance with course concepts, problem sets, and research projects.
 - Monitored students' research project by evaluating their proposals, providing constructive comment, offering guidance on alternative research methods, and assisting with their presentation preparation.

Winter 2024

Student Mentor

Toronto, Canada

- Department of Statistics
 - Conducted one-on-one meetings with students to provide academic resources and discussed personalized study plans tailored to their individual needs.
 - Organized workshops introducing students to RStudio, covering fundamental data analysis techniques and practical applications to enhance students' statistics skills.

Fall 2023

Sidney Smith Commons Summer Intern

Toronto, Canada

- Faculty of Arts and Science
 - Assisted with virtual and in-person academic wayfinding to provide students with accurate and helpful information, referrals, and support.
 - Delivered peer support through email, live chat, and virtual/in-person meetings to contribute to a positive community environment.

Summer 2023

SKILLS

- **Programming Languages:** C, C#, Java, TypeScript, JavaScript, Python, R, SQL, HTML, CSS, React
- **Languages:** English, Mandarin, Cantonese, Japanese
- **Soft skills:** communication, collaboration, organization, time management, critical thinking
